

Bengle, the new model from Decent Espresso

Coming in 2025. Priced at USD\$6000.

Everything we learned in 8 years of building the DE1, applied to make our ultimate espresso machine.

Decent Espresso drinkware

CONTACT US

Minimalist drinkware engineered for coffee pleasure

'Little Tippy' espresso cup (90ml/3oz)

Best for smelling espresso.

The unique asymmetrical shape opens up to let your nose enter the cup as you sip. This greatly increases what you can smell from your drink, compared to an open-shaped glass.

Very thin walls, matte outer finish, reminiscent of the best of Japanese ceramics. The inside of the cup is glossy.

ADD: \$14

'Tippy' latte cup (180ml/6oz)

Best for flat white, medium latte, Americano.

The unique asymmetrical shape lets you pour latte art early during your milk pour, letting you get the milk jug easily close to the milk. Very thin walls barely cool the milk, allowing you to heat it less, preserving sweetness. Matte outer finish, reminiscent of the best of Japanese ceramics. The inside of the cup is glossy.

QUANTITY: 3 X \$16

'More Tippy' latte cup (250ml/8.5oz)

Best for large lattes, filter coffee and large Americanos.

The unique asymmetrical shape lets you pour latte art early during your milk pour, letting you get the milk jug easily close to the milk. Very thin walls barely cool the milk, allowing you to heat it less, preserving sweetness. Matte outer finish, reminiscent of the best of Japanese ceramics. The inside of the cup is glossy.

ADD: \$18

"Half Decent Scale" (hidden) 

Subject: HDS - which parts do you need?
From: Mirjam at Decent Espresso
To: john@bookmooch.com
Date: June 9, 2025

Hey John,

Surely, you can reach out to Clement to figure out which parts he needs for his HDS - if at all.

Thanks a bunch.

Mirjam

Hello, I am trying to troubleshoot a flow rate discrepancy on a DE1 machine. I do not have a bluetooth scale or a puck sim basket. Is it possible to calibrate flow rate without them? - July 8, 2025
- [mirjam](#) [\[close\]](#) Greg Klingsporn **Need replacement grouphead touch panel**
Hello. This morning I stupidly dropped a cup onto my machine GHC and slightly chipped the edges of the glass (see picture). It still functions, but I think I would like to replace it (unless you recommend otherwise). Can you let me know the correct part(s) to order? Also, it looks from a quick search of the Diaspora that this is something that I can replace myself with some care, do you agree? Thank you very much, /Greg See attached file: https://decentespresso.com/f/13033/IMG_2628.HEIC - July 8, 2025

Ambassador contact from (Brian) (#160500) to JayJay Kim (#24287) Emails on this website go to Decent Espresso Staff, not to this person. Please contact this person using your own methods. --- Hey JayJay, I'm interested in learning a bit more about the Decent as I'm considering it for a coffee cart. Do you think that the machine is capable of keeping up with light to moderate use during a day? I saw one of Decent's videos where they were pulling back to back shots which was cool but they weren't steaming milk. Do you have any insight on whether or not the boiler would be able to keep up with making 15-20 or lattes in an hour? Thanks for your help :) Brian - July 8, 2025

- [mirjam](#) [\[close\]](#) Tom Collier **Half Decent Scale**
What's up? This morning I see messages coming through Basecamp from folks getting their half-scale and looking for instructions, yet when I go to the web site it says "coming soon"? Nick P. posted Half decent scale instructions Hi, Is there any instructions for the half decent scale? Ive just received mine and there are none included. No other options like a QR and just want to make sure I'm doing things as intended as does require some setup. Thank you - July 8, 2025
- [mirjam](#) [\[close\]](#) Jake Johnson **Order 25585-93109 Cusoms Due?**
The waybill number is, 8569617000. I just received an email from DHL stating they paid the amount, but that I now need to pay them. Seems like it could be a scam, though it does state that the package is coming from Decent and the Waybill number matches the one from the DHL texts and emails. Any help is appreciated. - July 7, 2025
- [mirjam](#) [\[close\]](#) Choi minhyuk **Order 28692-93134**
Hello, I placed an order that includes an extended warranty and three accessories. The actual items being shipped are worth \$149, but since the warranty is included, the total invoice amount came out to \$449. However, this may cause issues with customs clearance due to the high declared value. Would it be possible to adjust the invoice amount for shipping purposes to reflect only the value of the physical goods, which is \$149? Thank you in advance for your understanding and support. Best regards, Min - July 7, 2025

Yesterday

Thank you for the update! Could you please check if you can find the machine in the de1app?

How can i check?

I guess no

That's really odd. Just to clarify, you've never connected the machine to any other device or app, right? In that case, could you please film how the LED works on the ble module on the back of the machine and send it to us? You just need to remove the 4 x T10 torx screws (You can remove it using a blue handle screwdriver that came with the machine) and unscrew the intake lever to remove the back panel. And the module is in the blue square area. Thank you so much 🙏

(Tcl) Quickbooks Create an Invoice

Demonstrates how to create an invoice via the Quickbooks REST API.

For more information, see <https://www.developer.intuit.com/app/developer/qbo/docs/api/accounting/most-commonly-used/invoice#create-an-invoice>

Chilkat Tcl Extension Downloads

↓ Chilkat Tcl Extension Downloads

```

load ./chilkat.dll

# This example requires the Chilkat API to have been previously unlocked.
# See Global Unlock Sample for sample code.

# First get our previously obtained OAuth2 access token.
set jsonToken [new_CkJsonObject]

set success [CkJsonObject_LoadFile $jsonToken "qa_data/tokens/qb-access-token.json"]

set rest [new_CkRest]

# Connect to the REST server.
set bTls 1
set port 443
set bAutoReconnect 1
set success [CkRest_Connect $rest "sandbox-quickbooks.api.intuit.com" $port $bTls $bAutoReconnect]

set sbAuth [new_CkStringBuilder]

CkStringBuilder_Append $sbAuth "Bearer "
CkStringBuilder_Append $sbAuth [CkJsonObject_stringOf $jsonToken "access_token"]
CkRest_put_Authorization $rest [CkStringBuilder_getAsString $sbAuth]

# -----
# Note: The above code to setup the initial REST connection
# can be done once. After connecting, any number of REST calls can be made.
# If the connection is lost, the next REST method call will automatically
# reconnect if needed.
# -----

# Create the following JSON:

# {
#   "Line": [
#     {
#       "DetailType": "SalesItemLineDetail",
#       "Amount": 100.0,
#       "SalesItemLineDetail": {
#         "ItemRef": {
#           "name": "Services",
#           "value": "1"
#         }
#       }
#     }
#   ],
#   "CustomerRef": {
#     "value": "1"
#   }
# }

# Use the this online tool to generate the code from sample JSON:
# Generate Code to Create JSON

Increase catering kit fill level? — Not necessarily a problem per se, but this seemed like a better place to ask. With the catering kit, when the pump engages, it'll refill to 704ml every time. The tank will hold a LOT more than that, and particularly when doing Filter3 brews, I use a lot of water, and it'll soon be filling again, ...

 Mirko Buholzer • Mar 27, 2024 at 2:34 PM 4
App is hanging — When my app goes into screen saver mode 50% of the time the app is hanging and will not wake up again. I then have to open the android controls, kill the app and start it again. The challenge is that this some times corrupts the configuration of the DSK skin and the app doesn't start at all. The...

 Tom Poland • May 10, 2024 at 2:57 AM 9
How to attach the tablet to the machine — I've just taken delivery of a second (new) DE1XL and I'm struggling to figure out how to attach the tablet to the top of the machine. My original machine has screw holes in the top of the machine to attach the tablet stand, the new machine does not. I've gone through the unpacking

 Steve Langston • May 12, 2024 at 5:02 PM 3
Sugar in the portafilter? — Seen some instagram posts showing Cuban (?) espresso where they put a tsp of sugar in then grind on top. . Anyone familiar with this? Could one pop a sugar cube in with each dose with the beans and it be roughly distributed in the puck? I feel some experimentation coming on!

 Yuriy D. • May 12, 2024 at 2:32 PM 1
How much water does DE1Pro hold inside? — How much water do the internal components of the DE1Pro hold? In other words, what amount of water should I flush to move it from the intake to the grouphead?

 Bernard Mc Clement • May 12, 2024 at 7:46 AM 1
Tablet 'upgrades': Picture & reason request — I keep reading about people changing the std tablet on their Decent, and wondering why. Is it just screen real estate? Or are the replacements significantly quicker/more responsive? I do find myself wanting some of the controls to be a bit bigger, and the tablet feels slightly sluggish

 Luke Cotter • May 01, 2024 at 1:36 PM 5
Decent Scale Shutting Off — My Decent Scale is turning off mid-shot; I see something that says "Low" flash, and then the scale shuts off. However, I just got the scale and the batteries are not low. It does not shut off at any other time. Anyone else experience this?

 Problems by Mark D • May 11, 2024 at 1:53 PM 27
Difficulty enabling DYE on DSx — Hi, everybody! I've had my Decent since Tuesday, and have really been enjoying exploring its features (and making some pretty "decent" espresso, so far, though still dialing in a bit on ideal temps and grinds). I've been using the DSx skin, and one problem I've had has been that I can't

 Features by Scott Hansma • May 10, 2024 at 11:13 PM 7
Decent Ultrasonic? — Interesting article about using ultrasound to fast brew cold brew coffee in an espresso machine. Thoughts? <https://arstechnica.com/?p=2023421>

 Zeraldin • May 10, 2024 at 7:49 PM 1
Firmware updates? — Hi guys, How often new firmware update are coming out? Now I am on ver 1333. For past two months I tried to update firmware and both times new firmware was found and installed, in both cases in the settings says "Up to date". Does the machine checks for new updates or is the procedure to start t...

 David Haasch • May 10, 2024 at 1:25 PM 29
Recommended Steam Settings? — I'm using the default steam settings that came with the machine. Has anyone experimented with this at all to know what is best for a latte? Typically I'm steaming 4-5 ounces of milk.

Half Decent Scale : how to replace the PCB

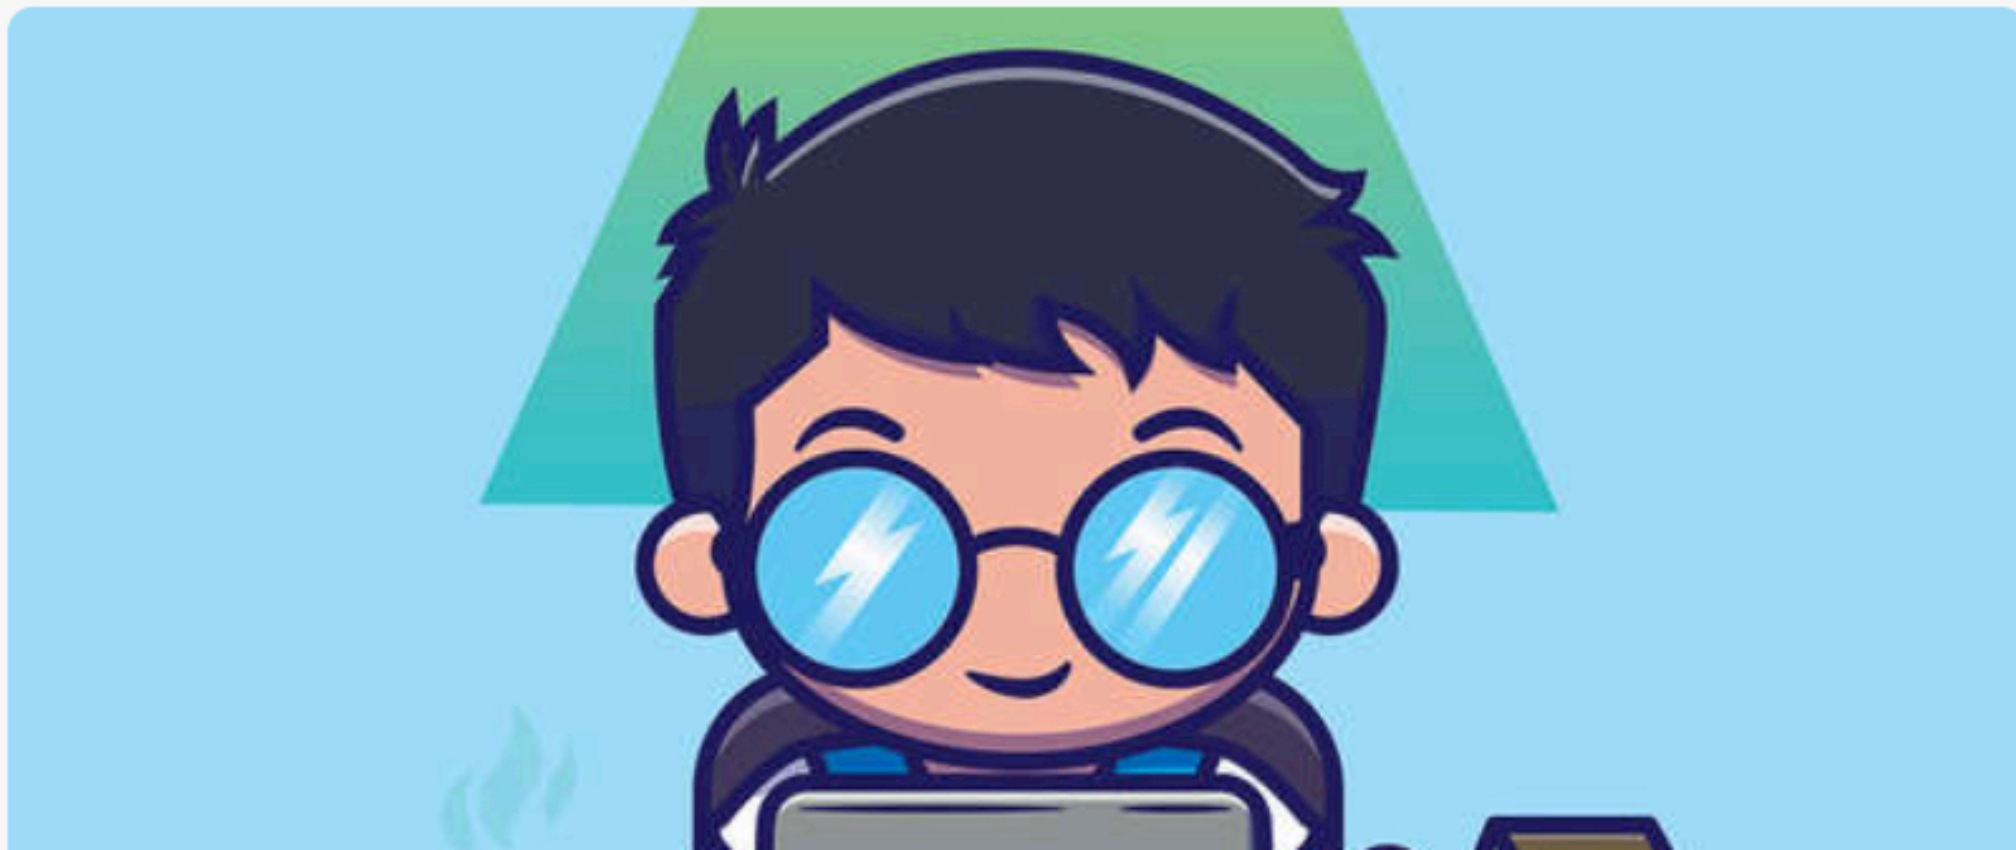

2025-05-30

In this video Levi shows you how you can replace the PCB in the Half Decent Scale. You might need to do this if Decent comes out with a PCB upgrade that you want, or if you PCB fails for some other reason.

Your first Decent espresso

Warm up the machine

1. Tap the Decent tablet screen to wake it up. It will say "Wait" and the espresso machine will go into a warmup mode. When it's finished, the screen will say "Ready."
2. Tap the **Settings** button in the lower-right corner of the tablet screen.
3. Tap the **Presets** tab on the **Settings** screen. The presets are a collection of brewing profiles. Choose the "Default" setting or the "Gentle and Sweet."
4. Tap **OK** to return to the Home Screen.

We recommend that you use the same coffee profile for about a week, with the same beans. This will give you a chance to "dial in" your espressos to your taste and reduce the number of variables.

The "Ready" button appears after the machine is warmed up.

Choosing the "Default" preset
